MOHAMED IRSHAD THARIK

Web / Mobile Application Developer

075 962 3723 m.irshadtharik@gmail.com Kandy, Sri Lanka

PROFESSIONAL SUMMARY

Computer Science undergraduate at APIIT focusing on web and mobile application development, UI/UX design, and embedded systems. Interested in building practical, user-friendly digital solutions using modern technologies.

EDUCATION

APIIT, Sri Lanka | 2024 – 2028 (Expected)
BSc (Hons) Computer Science · Currently in Year 2

APIIT, Sri Lanka | Completed February 2025
Foundation Certificate

ACADEMIC PROJECTS

Cake Shop Application — Flutter · Dart · Firebase
Developed a mobile application for browsing cakes and managing orders, featuring user authentication, product catalogues, shopping cart functionality, and profile management.

CityRide — Ride-Booking App Design — Figma · UI/UX Design
Designed a ride-booking mobile app interface featuring pickup and destination selection, vehicle selection, booking, and driver arrival.

MediLink — Emergency Dispatch System — Figma · HCI · UI/UX
Created interface concepts, user flows, personas, and wireframes for an emergency dispatch system, applying usability principles to improve the user experience.

Nutrition Website — HTML · CSS
Developed a nutrition-focused website presenting nutritional information through a structured, user-friendly interface. Created during the first year of university as my first website project.

Secure Industrial Loading Gate — ESP32 · Arduino · C/C++ · IoT
Developed an embedded IoT prototype to automate industrial loading gate control using an ESP32, ultrasonic and PIR sensors, and a servo motor. Implemented obstacle detection and safety logic to prevent the gate from closing when an obstruction is detected, focusing on sensor integration and hardware control.

TECHNICAL SKILLS

- **Mobile Development:** Flutter, Dart, Android Studio
- **Programming Languages:** Java, C#, Python, C, C++
- **Web Development:** HTML, CSS, React
- **Backend & Cloud:** Firebase, Supabase, MySQL, AWS, Vercel
- **UI/UX Design:** Figma, UI/UX Design
- **Development Tools:** Git, GitHub, Arduino IDE

PROFESSIONAL SKILLS

- Problem-solving
- Teamwork and collaboration
- Communication
- Time management
